Subject: RE: Title V program evaluation DRAFT write-up

Everyone,

I also have the draft NSR evaluation and will forward both the final NSR and Title V evaluation as soon as I can review them one more time - which will probably be the first part of next week. Thanks dk

Subject: Executive Summaries for NSR and Title 5 Program Reviews

Dick and Callie -- Attached are the two executive summaries for the NSR and T5 program reviews. I have added the BACT/Petition Review section to the NSR summary and organized both reports so that the findings fall into one of these categories: 1) improvements made in program over last 5 years, 2) areas the state needs to improve, and 3) areas the state needs assistance. Please let me know if you have any further questions.

Catherine,

Attached are both the NSR and Title V questionnaires for Montana. I know Debbie Skibicki sent you the Title V questionnaire already, but I thought I would resend it to make sure you get them both. Please let me know if you need anything else. Thanks dk

Subject NSR Program Review

Doug -- Attached is the DRAFT Report from the NSR program Review. Please let me know if you have comments. Callie still needs to complete her review and the state of mt has not had an opportunity to look at it yet. Thanks for your interest. -- Catherine

Subject: NSR Report that you requested

Callie -- You requested yesterday at 3:30 pm, after I left that I provide you with the compilation of NSR comments. I have done that with in the document and highlighted each persons comments in color. I was planning to address these when I return. I do have the original versions if you want to look at them. There are some changes that I already made because I agree with them and they are not highlighted but are in the original text formatting.
